

Immersive Engineering Experiences:

- 'Boeing Experience': exclusive access to a range of commercial aircraft alongside aerospace engineers and pilots at an airfield
- Discover the magic of 'Supercar' production and design with engineers from leading supercar brands
- Take apart a petrol engine under the supervision of a top mechanical engineer
- Design an aerofoil and test it live in a wind tunnel with a Rolls Royce engineer
- Use structural engineering principals to build your own bridge and test it to make sure it can carry heavy loads
- Create your own sustainable engineering solutions to protect the Thames Estuary from the imminent flood risk
- Pitch your own cutting-edge engineering start-up to a panel of experts in a simulated Dragons' Den

Meet Senior Engineers

- Be coached through the immersive experiences with engineers from world-renowned firms specialising in mechanical, civil, materials, aerospace engineering and more
- Private networking sessions with these professionals, who can become vital connections for your future career

Career Coaching:

- Receive training on how to land the most desirable jobs in engineering

- Advice on subject choices, university selection, work experience, extra-curricular activities and more
-

Competitive Advantage in Your University Applications:

- Attending the experience demonstrates that you have gained skills which are highly-valued by top universities
 - Complete the online assessment after the programme and receive a personalised certificate to include in your UCAS/College applications.
 - Personalised industry reference letter from engineers confirming what you achieved on the programme.
-
